Customer Reviews

I ordered this book in paperback form, as its over \$200 cheaper than the hard bound and is described as having the same content as the other version. When I received this book, however, it only went to page 715 while the description states it was over 1000 pages. I don't quite know what happened to the other 300 pages, but I am hoping that they were unimportant for the class. My recommendation- buy this book from the publisher. Only then will you know that you got the proper book that you ordered.
