The Skin Care Answer Book

Synopsis

In over two decades of practice, the author has been asked hundreds of questions by clients, as well as estheticians. Now, the Skin Care Answer Book provides concise, quick answers to the most-asked consumer skin care questions and will help educate students, licensed estheticians and clients alike about their individual skin types. It is written in easy language and is set up in a Q & A format, organized in chapters by subject so that it is easy to navigate.

Customer Reviews

I bought this book to find an easy layman's way of explaining proper health care and conditions to my clients. This book provides just that, as well as goes into more detail than expected. I actually learned a lot more from this book than when I was in Esthetics school because things were explained in such better verbiage.

As an esthetician, this book has been extremely useful in my practice when educating my clients. I'd always been a little too scientific in my explanations or answers to clients' questions about their skin and this book has helped me find a voice that offers a balance of science & layman speak. Love it and reference it often.

This book gives you essential information about everything you should know about skin care. I am not dermatologist, but this book could make me a Skin Care Expert.

Dr. Mark Lees makes skin issues I learned about in school easier to understand and more able to treat conditions. I love how the book is organized, easy to navigate through. I will definitely continue to keep this on hand.

I am in esthetician school and was looking for a book that will further my knowledge about the skin. This book has so many great questions and answers that are very clear and easy to understand. I feel that this book is a great addition to my education and I will only do better when I start working on a clients face and if they have questions. The only thing that I would change is that the pictures in the book are in black in white which makes it a little difficult but still okay to look at. However, I was so happy I decided to purchase this book, I highly recommended it!

Best educational book I have ever purchased. I am a Esthetician and found this book to be the best informational guide. It is highly worth the price. No books compare!

I love this book because the content is easily understandable. The information about basic skin care for all skin types is concise, brief but not glazed over. The Q&A format is actually fun to read. I would like the book to have more images as reference to some skin conditions or even more information about skin care products for daily use at home.

This book is for someone who understands more medical terminology than me. I found medical terms I did not know and no explanation in the Glossary.
