## Customer Reviews

This book was painful to read and does a disservice to the fire service by cherry picking statistics in an attempt to move us along toward a "Federal fire department" mentality all under the banner of

"life safety". Tireless lecturing and opinion. Little fact. Lot's of twisted statistics. This book should be titled "Follow these elaborate initiatives and it will help you get federal grant money with even more strings attached so you will do as we say". He literally says "sprinklers will cut greenhouse gasses by 97.8%". I guess we are running out of things to actually teach.

Book is in perfect condition.
