## Customer Reviews

Iâ™ve read this book recently, and finished it without a break! I already knew about the bust of Nefertiti, and in fact, I have even seen it in the Museum last year in Berlin. However, I barely knew anything about her or Akhenaten, except that they were important to ancient Egypt. This book reveals many stories about Nefertiti and her family, and it has truly opened my eyes to all the wonders of ancient Egypt. I had no idea that the Amarna period had anything to do with Nefertiti and her husband, thereâ™s still so much to learn for me. After reading about their arts and culture, I was really fascinated. I have purchased a paperback copy from the same author of Cleopatra, and I'm eagerly waiting for the book to arrive! There are many speculations, and after reading this book, I also do believe that Nefertiti has ruled Egypt for a short moment of time under a different identity after the death of Akhenaten as it makes sense to me. Though, that makes me just one of the assumer's, hopefully we will know more about her very soon!

This book is interesting, but informative. By the help of this book I have come to know more about ancient Egypt especially the Egypt of Nefertiti. I had a huge interest to know more the beauty of Nile and for that reason I was searching for the perfect book. A few weeks ago, my close college mate recommended this book and also notified me about its discount period. I am really glad to read this book and by reading his book I am impressed. Inside of this book the author has described lots of interesting information and story about this mysterious queen. If you have any interest to know more about the most powerful queens in Egyptian history, then I will definitely suggest this book.

Talking of Egypt, only two things strike my mind - Mummies and pyramids! I have a plan to visit Cairo in this year and ever since then I've been reading lots of book and articles on travelling to Egypt. This book came as a suggestion and seeing the Egyptian Queen Nefertiti, my interest to read the ancient history grew further. Very insightful and deep book, revealing the history of Amarna period. The mysteries, the puzzles, her rise and fall, everything beautifully described. Really enjoyed this book, although I'm not into history and stuff. But this book is short and kept me hooked. Thumbs up!

This book contains information about the Ancient Egypt of the beauty Nefertiti. Before I don't have knowledge about it but glad I got this book I have already insight. I discover the mysterious and beauty of Nefertiti during the ancient time. I'm not so fun of history but this I appreciate it much. I recommend this book for those not yet discover the beauty and power of Nefertiti, grab this book.

Cleopatra and Nefertiti are best known in ancient history. I remember the role play we made during our high school days. Beauty and talent in one piece. History makes me feel bored but not this book. Great read.

I loved reading this book. It's a great walk down the history of what once was a strong and powerful country. Although a lot has happened over the years, reading about how things were in the past definitely was a great way to learn more about their history.
