# I-Car Professional Automotive Collision Repair

## Synopsis

This popular comprehensive introduction to automotive collision repair has been revised to include a new, full-color painting and refinishing section. In addition to all-new illustrations, coverage has been added to include the latest high-efficiency spray guns, gravity feed spray guns, and surface preparation materials and methods. The mechanical repair section has been revised to include scan tools, OBD II and the use of refrigerant recovery stations. Each service-oriented chapter now is accompanied by a practice ASE test featuring numerous ASE-style questions. Accompanying the book is a thoroughly revised Technician's Manual including an all-new section with exercises related to NATEF's related academic areas including communications, mathematics, science and workplace skills, in addition to numerous job sheets for lab activities.

## Customer Reviews

This textbook is very good for high school students with little or no knowledge of auto repair, tools or procedures. The book will not provide enough information to perform any procedures, but will be very helpful in learning what are the different types of screwdrivers, hammers, etc. used in auto repair. This text needs to be followed by a much more in depth text.

book in great condition for a used text book. no markings on pages and binding in good shape. great buy for the price and extremely helpful in getting son into college. thank you

Thought it was going to be like the hard back book and but it was like the questions for the hard back book.
