Customer Reviews

Dear god is this book dry. If you looking at this for an online course you might as well buy some booze to help get you through the chapters. The book is well put together with relevant information but its dry and an unpleasant read. Buy if you must, book was rented and came in new condition.

This book is a very important commodity in my line of business. I thank-you for getting this book to me in such a timely manner. I also believe that the knowledge attained from the study of this resource will help me to improve the lives of 1 out of 10 adolescences. Thanks!!!

I had to buy this book for my Social Psychology class and I'm definitely going to keep it. I love learning about psychology, but this is one of my favorite psychology books! It definitely keeps you interested.

I found this textbook to be quite readable while also giving in depth information on important concepts in social psychology. This is a good fit for a first course in social psych.

Well-written with bits of humor sprinkled throughout that make readings go by quickly. Enjoyable, thorough, and interesting!

It was affordable and in brand new condition as well as arrived on time. No complaints on my end.

Quality is excellent, and the paperback is a great alternative to hardcover.

I wouldn't have purchased it if I didn't need it, but I needed it for my class and so far it is an interesting textbook.
