Customer Reviews

I'm not overweight, but interested in a healthy lifestyle. The book is useful not only for those who want to lose weight, but in general to all, regardless of age. In particular, I would advise her youngest, who is still quite large reserves of strength in terms of health. It was written based on the scientific achievements in various fields: medicine, psychology, physical education, but it is very easy to read, because the material is presented not only competently, but is designed for people

who have no special education. The author is clearly good literary skills, plus the fact that he is a very competent doctor. And I was pleasantly surprised that in this thick book - is the lack of grammatical errors. Now it is very rare, even in fiction.

Detoxification is very beneficial to our overall wellness. And so, if you are looking for some ways to detoxify, then youâ™ve found the right book. This will provide you with smoothie recipes which you will definitely enjoy while restoring your health and lose weight at the same time. This box set also includes low carb cookbook which consists of delicious snack recipes you will surely love. This is definitely a recommendable collection everyone should have.

Anyone who is watching their weight! I am fond of a healthy diet because it's important for me to keep up the figure and your health. Many books write about healthy food, but some do not separate food and dishes. In this book I found many easy recipes that make my life easier!

I'm a skinny person, but that's only because I play sports. I eat moderately. But my mom really wants to get rid of some pounds. And I am very happy that I found this book. My mom was surprised when I saw similar recipes. It is not exercising because it can be harmful because of the nature of health, but she believes that with the right diet she can lose weight. And I believe too. Thanks to the author for this interesting book.
