LGBT Youth In America's Schools

Synopsis

Jason Cianciotto, MPA, and Sean Cahill, Ph.D., experts on lesbian, gay, bisexual, and transgender public policy advocacy, combine an accessible review of social science research with analyses of school practices and local, state, and federal laws that affect LGBT students. In addition, portraits of LGBT youth and their experiences with discrimination at school bring human faces to the issues the authors discuss. This is an essential guide for parents, teachers, school administrators, guidance counselors, and social workers interacting with students on a daily basis; school board members and officials determining school policy; nonprofit advocates and providers of social services to youth; and academic scholars, graduate students, and researchers training the next generation of school administrators and informing future policy and practice.

Customer Reviews

Out of all the books that I have read on the subject, this one was by far the best. I found it to be illuminating and inspiring on what kids are dealing with and how we can make their lives better. I recommend it to any teacher or parent who wants a better understanding of the real life truths of what is going on in our schools today concerning its LGBT students. We found the information to be very helpful in our family.

I have bought copies for several people. This is an essential book for school guidance counsellors and teachers. It provides both information and guidance.

Great book for educators who want to better understand this population and what LGBT students deal with in school every day. A MUST read for all competent educators.

GREAT book. Loved the narratives within the text.
